2022-2023

MOBILE PROGRAMMING MIDTERM EXAM

07.12.2022
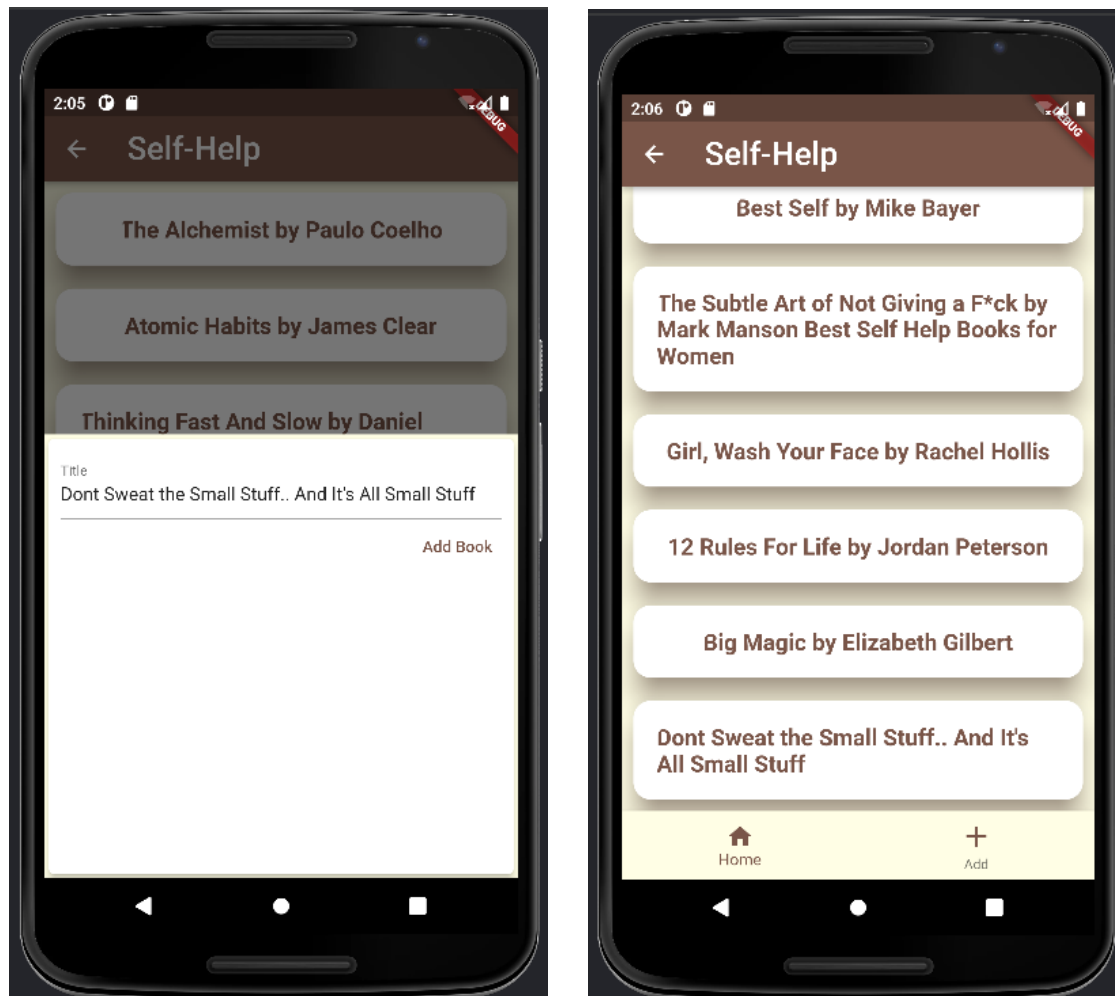

You will a create homepage that includes the genres of the books by using Grid View. (Data is provided under the files on Canvas.)

When you click those genres, a book list page will be viewed. You will do that by using the Navigation class. You will use ListView.builder for listing book items.

There is a bottom navigation bar on the Books screen. Home, the bottom navigationBar item, will take us to the homepage.

There is a bottom navigation bar on the Books screen. The showModalBottomSheet, which consists of one text field and one button, is accessed via the Add bottom navigationBar item. When you click the add button, you will see the added book item on the book's screen.

Submission

You will upload a zip file that contains a single ".dart" file and screenshots of your application. Remember that you can only submit on Canvas; other kinds of submissions, such as mail or comments, will not be evaluated.

Good luck to everyone.
